

Broken People part 3

~OR~

There is no 'or,' they are FUBAR.

Grab your goodies here we go. I have a very painful, terminal, disease compliments of US military duty to cowardly, thankless, unearned, entitlement Americans. **I have no misgivings that I am a dead man.** There is a certain freedom to knowing that: nothing here is sacred. Never was but I did not know that until recently. The diseases are from handling toxic chemicals, bio- and nuclear weapons and their delivery platforms during my tour of duty serving America during Vietnam and Cold War eras. The nastiest shit imaginable that even John Wayne told Hollywood to shove up its ass in even thinking about including in Green Berets, his last War propaganda film, which was about Vietnam War.

People, understand this: bio, chemical, nano and nuke weapons are designed ONLY to sicken, cripple and kill people. Lots of people. The fireworks are collateral damage not a celebration while eating hot dogs. **These weapons are meant to demoralize and sicken a nation's population so that it cannot fight, or support its military or government to do that.** By default that country loses the war with fewer losses to the other side. That's our nuts we are talking about. However, our side is doing a bang up job of crippling, sickening and killing our guys and gals instead of allowing the enemy to do it.

America, whose fucking side are you numb nuts on?

None of this is cool like in video games, TV and cinema. IT IS REAL, AND HURTS!! Certainly not those old soldier, wore out, war stories one hears the wannabes tell in VA clinics and hospitals while waiting all day for an triple booked appointment!!! The worst hell on earth and 'fate worse than death' are these goddamned weapons and what they leave behind. **They have no antidotes, no cures, no treatment, no vaccines.** They are engineered and designed to sicken, torture, cripple, and kill. GET THAT STRAIGHT! **Why give an enemy the antidote for the poison you just fed him?** Get my drift. I have those diseases from handling that fucking shit with a gun barrel in my back. I.e. The millions of Vietnam Vets and our Vietnamese allies sprayed with that shit that this country & VA denied, lied, and let suffer to die from the exposures. The Vietcong enemy was only a secondary consideration in that equation. They were hiding underground. Any losses were only collateral damage. American forces and our Allies were the FUBAR-TARGETS BUYING THE FARM, GET MY DRIFT? Delivered by the US government backed by the American people. **THAT IS YOU, BINKY! Whose fucking side were you on, anyway?** You should get this shit. Then you will wake up fast to what you are supporting to not do it anymore. Remember what I wrote about the whole point of these weapons? However, do not get up about this; you are not missing out. People ingest and are exposed to these horrid chemicals and such in the daily items consumed from processed foods, soda pop to bottled water. Don't even talk to me about military and military industrial toxic waste contamination across this country poisoning you 'special buttercup Americans' and killing your born and unborn kids!

Read product labels. All those funny ten-mile-long words that you do not understand that list what is in the soda pop you feed selves and your babies. Those are what I am talking about. All processed foods including chicken m*nuggets have this in them. Recall that chemical twang in your mouth that hangs around for days after eating them that those included sauce packets conceal? Bingo, bad shit. Bit by bit that stuff builds up in your body to become diseases at later stages of life – FUBAR. The

first areas and organs attacked by these substances are body filtering systems: kidneys, liver, autoimmune damage, thyroid, bladder, uro-systems and more where all that collects for final disposal from the body. Can you say cancer among other things that you never heard about that really fucks up your life! Ie. My golden retirement years consist of on the best days the urine collection bag connected to a rubber tube in my bladder through a hole in my abdomen that drains it because nothing below the navel works anymore is full of golden pee. On good days, it is filled with bloody who knows what draining from the inside damage that stuff did to me.

Which leads me to The US Department of Veterans Affairs a wholly US Socialist government subsidiary of extremely Broken People.

VA C&P BENEFITS IN WACO, TX, AWARDS ME '0'% DISABILITY. THOSE FUCKS SHOULD TRY THIS ON FOR SIZE WITHOUT TRAINING WHEELS. THAT IS OUR DEADBEAT GOVERNMENT'S REWARD TO SOLDIERS AND VETS FOR A JOB WELL DONE SHOULD S/HE BE UNFORTUNATE ENOUGH TO SURVIVE. GET MY DRIFT, BINKY? THAT AWAITS SOME OF YOU LATER ON IN LIFE IF NOT BEFORE FROM EXPOSURE TO THIS SHIT! THERE ARE FATES WORSE THAN DEATH IN THIS HELL HOLE, I TELL YA. I keep pulling my ACEES ejection seat handle to bail out and it keeps misfiring at the first detonator. Bastard government contractors.

To continue, couple all the aforewritten environmental exposures with the insane shit building up in your body and brain, and the Socialist propaganda machine, aka news, media & advertising, constantly pumping mental shit into your head. The end result?

CRACKERBOX-PALACE-FUBAR WITH THE AFOREMENTIONED BODY ROT & DAMAGE TO GO WITH IT. NOW YOU KNOW WHY THE SOCIALISTS ARE NUTTIER THAN A BAG FULL OF SQUIRREL SHIT FROM SNORTING THOSE TOXINS ON CAMPAIGN TRAILS.

No wonder Mother Nature and Lady Evolution are dumping in the human genome pool through 3 holes set on afterburner trying to fix what they built over billions of millennia that humans have fucked up in less than two centuries! Only the fucking Socialists could come up with a plan like that to overthrow USA from an internal coup d'etat. Nikita Khrushchev said that in 1954 just before the ball games. Everyone in America was watching and nobody heard him. [... Communism will conquer America without firing a shot.'] **It is here without shots fired.** Communism and Socialism is the same thing. Ayn Rand, the greatest female mind of the 20th century said, [Socialism is suicide by vote; Communism is death by force out of a gun barrel.] USA is a mixture of those paradigms: US Socialism is US Communism dressed in drag. No one heard Ayn, either. You fucks and the feminazis got your wishes.... unintended consequences included. Lucifer, dude, are you hearing this? This is your party now. I am outta here.

I did not have much of a choice when it came to serving military duty to America. Right out of high school Uncle Sugar sent 'some' boys a draft notice and party invitation to WAR. Then to ensure MANDATORY attendance marched us in to it at gunpoint. No party poopers.

US Socialists called 'press ganging' freedom.

Unlike Elton John's, "Philadelphia Freedom" draftees had three choices from the cowardly Americans holding that gun while hiding from their wars: serve, leave the country or prison.

Now, prison does not suit me one bit. My asshole when it cooperates has only one use: to shit. In prison they use them as party favors to jacking off...ALL NIGHT LONG aka, A GANG BANG, which is similar to Socialists 'press gang' except they do not allow guns in prison. So, to get around that 4 beefy cons hold you down while waiting his turn. These cons spend all day pumping iron and all night long pumping new arrivals...if you get my drift. NO FUCKING WAY, BINKY.

Army and Marines, no crawling around in jungle shit, at night or anytime, with lots of unidentifiable things not of this earth but exist here anyway that want to eat me worse than the Vietcong want to slowly skin me alive while savoring my screams. I am not a fish. It is all the same - jungle rot or skinning – no goddamned way.

As an aside, for all you American **Elmer Fudds with guns**, who like to kill people - enlist. The military will supply everything for you to do that with one caveat – the other side wants you dead, too. Quite different from murdering unarmed kids in a public school, holy rollers in a church or diners at a local Furrs cafeteria, living on a fixed budget, out on old folks special day of buy one and two eat free, which is a great deal for the cafeteria how much can toothless old people eat? Hey, Elmer, enlist...learn your lesson. All life is colorless & sacred and it is not your place to take it playing god preying on peaceful, beautiful people. War and body bags were made just for you.

Navy? Nope, same reasons as prison. Sailors like to buttfuck too much for my liking when bored out at sea floating in a tin can with a target painted on the side of it. Shit, my back already has a target on it...think I want to advertise that in open sea or in a Mid-Eastern port? Can you say SS Cole? Fuck you! Forget the Waves...one look at those contagious skanks and CLAP from hell! Got no use for pissing Napalm out the end of my dick first thing in the morning waking up to blood curdling screams and that shit dripping off my hooter leaving burn marks on hallways all the way to medical for a 'breryl cream' antibiotic shot in the ass. After that a guy cannot sit down or piss for a week. Navy – some fucking adventure. I can get that without ever leaving home in a back alley after dark. Ever try sleeping standing up? Forget pissing – CLAP hurts. Skanks don't even look at me. There was an ancient rhyme and reason for the 12 virgins. Nobody ever caught the Clap off a real one. No wonder those old guys stoned the fakes.

CLAP FUCING HURTS, I TELL YA. AFTER THAT I SWORE OFF PUSSY COLD TURKEY...WHEW...NEVER AGAIN. FUCK THE GENE POOL IT CAN DO WITHOUT ME.

Moving on, so I wimped out and chose USAF, which seemed the least of all evils. What could go wrong there? Everything and is why I am in the sad shape of today's edition of Broken People. My little brother followed my example. He died of this shit at 64. Bro, sorry, wrong role model....the blessing is that you no longer suffer...not fair...I was supposed to buy the farm first - RIP. A choice between evils is always that here. That religious good/bad paradigm was to control unwashed masses from over breeding. What else would one expect doing life in Hell.

Get this straight, I am not a patriotic puke & phony trying to get everyone to like me as one sees in the stereotype porn, PR pictures of some old fart or crippled actor/actress wearing a cunt cap, saluting a piece of colored cloth. That symbol is responsible for untold human suffering on both sides of the war. That unfortunately does not include the right people! If our looterish and the excluded Americans had to undergo this shit the non-sense would immediately stop. That was one chief complaint about the draft - inequality....only certain people were drafted. Excluding VIP's like Bill Clinton, Shrub Bush, and Al Gore for instance. Women were out of that game entirely. Those with rich parents, PI, 'political influence,' who could hide in University paid for by Mommy and Daddy did not face their 'patriotic duties' at gunpoint enjoying Socialist freedom as did those of us under the lesser gods at the Pentagon and Washington DC. To you liberated ladies; equality has included you in the New Draft, however. You asked for it, you got it; have fun wearing a piss pot with a rifle in some hellhole. Now you, too, can savor all that fun you thought we guys were having while you remained home fucking half the neighborhood on the sly. You got pregnant and went on food stamps he gets a Dear John letter and takes the next grenade to end his pain of abandonment. Tell me again how bad US Women had it. Now you will know his joy up close and personal. Don't you just love parity? When you are up to your nose in some jungle swamp with leeches in your crack- BITCH, NOW, PLEASE!

Safety Tip: shake out everything before getting into it. Those fucking scorpions hurt like a bitch.... nearly like the clap but in the damndest places they can hide. I can describe a scorpion shot in one word: HOT. In my mother's colorful lingo she would say, 'burns like a goddamned motherfucker!!!' Mom had a way with words... Napalm is a close second to the scorpion sting. Think of the tenderest thing on your body...hint, ladies, it involves those three holes that confuse you so much. Now imagine a forest fire blaze of Napalm air dropped at that location. OUCH understates your pain. Shake and Shake again...those little bastards HURT! For a tiny bug those things pack one hell of a punch.

Because of that colored piece of cloth and what it represents in reality our people were and are still crippled, killed, and suffer in war, and kill selves at 100 plus a day in suicides from damages of military duty ignored, abandoned, mistreated or otherwise by this fucked up country. While coward, profiteering American's and their institutions look the other way.

PUSSY, CONQUERED AMERICA. THIS NATION IS FULL OF THEM!

I THINK CLAP WAS INVENTED JUST FOR YOU!

**Note: pay attention a Key - hint, hint:
However, clap like Covid has an antidote.**

**AMERICANS THINK THAT 911 AND COVID ARE THE WORST THINGS THAT CAN
HAPPEN TO THEM, DO YOU HEAR THE HOAX IN WHAT I JUST WROTE ABOUT CLAP**

AND COVID? LIKE AL GORE'S MULTI-MILLION DOLLAR GLOBAL WARMING HOAX? HE WAS A PIKER COMPARED TO MULTI-TRILLION DOLLAR COVID HOAX.

Remember what I wrote about real bio weapons.....go back and reread until the ah-ha light blinks fully on.

But don't get up about it. PTB are watching how the herds react so that they know where to be when the blood-spooked Broken People herds go wild after the real one arrives.

THAT IS THE REAL MEANING OF HERD IMMUNITY BINKY!

Like an old Native American proverb, “**when buffalo fuck run for the mountains...**” Those things are big as a Mack truck and trailer. When thousands of those insanely horny bastards go wild...shit, Mayflies move aside. And the wisest Indian is already holed up in the mountains before that happens with box seats and beer watching the event. Same for herds of blood spooked, Broken People when the real one arrives! Ever heard of the Georgia Guide Stones? Educate yourselves... When the real one arrives PTB's are already deep down in their underground DUC's & DUMB's. The bastards are lost because when the sewers back up their shit is flotsam! Again, if you do not know what these acronyms mean, get your fucking head out of 'AceBook' and self-educate, now. GET OVER IT. EVERYBODY HATES YOU. NARCISSISTIC SELF-LOVE IS ALL THE RAGE. YOU ARE GETTING SLOPPY SECONDS OR WORSE. GUYS, YES, YOUR MOTHER LIKED YOUR SISTER BETTER THAN YOU. GET OVER IT STOP JACKING OFF TO MOMMY AND GROW UP. STAY AWAY FROM THOSE CONTAGIOUS SKANKS FOR YOUR SAKE. CLAP HURTS A LOT! I HEAR CRABS ARE A BITCH, TOO.

Institutions as the VA hide and overpay Broken People instead of sending them to do this nation's dirty work that this country instead wastes our best and brightest to do. If that is not a communist coup d'etat then what is? Instead, America keeps genetic shit reproducing in fucked up Broken-People Government institutions as VA that are not caring for our war wounded and survivors. They are useless eaters. While America kills producers doing the work! SNAFU, SOCIALIST INTELLIGENCE GONE FUBAR AND CIVILIANS THAT IS YOU, BINKY, ESPECIALLY AT THE FUCKED UP VA!

WHICH LEADS ME TO EPITOME OF THIS TYPE OF BROKEN PEOPLE.

A most recent example of VA SNAFU, involves the grand 'one star' North Texas VAMC system. It is 'one star' because the rating system officially does not go to the basement. Lack of vocabulary fails me to describe the toxic atmosphere any better than this: it is a drama queens, matriarchal, misandrist, bitch-shit, romper room, of perpetual 4-year-old brats on a sugar & caffeine buzz and beyond that words fail me. The closest circumstance I can relate the experience with is a Marx Brother's – Three stooges comedy with Keystone Cops as tonight's guests stars all in one place, with a left foot nailed to the floor, spinning around in circles going “wooo, wooo, wooo!”

After discharge I fired the VA after months of pure sadistic hell in just trying to receive basic benefits that were part of my Faustian Contract with Satan called an enlistment contract. That is a steel

bear trap clamped to your ass for life. One avoids sitting on that part of his anatomy forever. The king of all pain in the Asses that beats 12 virgins perpetually. That was almost 50 years ago, and let me tell you it remains FUBAR, which is SNAFU for SOCIALIST & MILITARY INTELLIGENCE and that is an understatement. Moreover, this proves that no intelligent life on earth has yet to evolve out of the human primeval slime pit. Perhaps stoner's Mother Nature and Lady Evolution are really trying to improve that by taking a dump after consuming too much MK-Ultra LSD-acid using all three holes set on afterburner into the Homo Sapiens Genenome pool after mistaking it for the ladies Lou. They are trying to fix it.

I swore that I would die before ever again setting foot into another VA shithole of drama queen, village idiots – **no disrespect to the village idiot**. The locals need them to sit in the chair during 'Dunk the Mayor' fundraising games at the town's annual picnic. They have a good purpose. Do not drown the village idiot. If you can tell me a proactive purpose for those idiots at VA I am all ears. Literally dying was the circumstance when another veteran found me fading fast from these horrible diseases, no thanks to Obamacare, and dragged my nearly lifeless body, as he would have a wounded soldier off a battlefield, back to VA and said, SURPRISE, remember all this shit you denied decades ago? Now it is a monster from hell for you to fucking feed & clean up after. Then the bastard left me there without a ride home. I will get you for that prick....

The only reason VA did not toss me onto their secret lists of over 300,000 dying and dead veterans awaiting care, which it recently, publicly announced, really did happen and was not fake news, is because of Mr. Trump and Mr. Wilkie! Those real leaders said, "if this vet dies we will fire all of you and imprison each with his or her own 12 virgins in a 12' X 12' cell located in the dungeon district, forever. That place makes the Mexican & Turkish prisons system The Taj Mahal in contrast. Don't even think about aspirins, bitches.... kill him and you suffer. As an aside, when VA comes clean about anything it is to cover up something far, far, worse. That is a red herring away from something far worse that has not yet surfaced from the filthiest sewage of the worst healthcare system in America that even the Deep Dark Net cannot best.

Now a personal word about Mr. Trump and Mr. Wilkie.

Those two were the first real leadership in the Whitehouse since Ronald Reagan Administration. The only reason US Socialists still curse him is because he derailed their plans triggering US into a major civil war and collapse after over 60 years of wrongheaded Socialist rulership. This country was in rebellion when 'We the People' finally pulled out their heads and said enough to toss out Neo-socialist Jimmy Carter and his Communists. I lived through that era and it was rough. The screaming hordes were with pitchforks, torches, tar, feathers, and lynch mobs...screaming for political blood. This western revolt was worldwide! I think it was Poland that murdered their communist dictator then broadcast the dead body via constant 24 hours satellite uplink to the world for over a week as a message to politicians if they did not get their shit on track now. I guarantee you even in USA the politicians were constipated for months and hiding sharp objects away from their employees. I think Congressional representatives even stopped buttfucking their page boys during that time, but do not quote me on that. Can you say world wide French Revolution? I actually witnessed 'We the People' across America – armed - took back local, county & state houses across this country, and the US Constitution backed them ups. Moreover, the police sided with WE THE PEOPLE. DON'T UNDERESTIMATE THEM...THEY ARE OUR SIDE, PEOPLE.

NEVER FORGET, AMERICA IN YOUR ZEAL TO DEFUND THE POLICE INSTEAD OF THE TRUE CULPRITS THAT THE POLICE LIVE HERE, TOO. THEY WERE NOT IMPORTED FROM A NAZI DEATH CAMP. THEY ARE AMERICANS JUST LIKE THE REST OF US. THEY HAVE FAMILIES AND A GRUB STAKE IN THIS COUNTRY, TOO! THEY ARE OUR SIDE! THEIR RANKS ARE FILLED WITH PEOPLE JUST LIKE YOU AND YOUR NEIGHBORS. IF YOU WISH TO DEFUND ANYTHING BEGIN WITH THE 'POLICE STATE!' THERE IS A DIFFERENCE AND THAT IS WHAT THE 1980'S REVOLT WAS ABOUT! IE: HITLERS NAZIS WAS A POLICE STATE! SOCIALISM IS A POLICE STATE! NOT THE LOCAL AND STATE POLICE DEPTS. UNDERSTAND THE DIFFERENCE!!! WHEN AMERICA BETRAYED ARMED FORCES AND VETERAN SOLDIERS IN 01/21/1977 WE WERE AND REMAIN JUST LIKE YOU. THE MILITARY, INDUSTRIAL, POLITICAL, PENTAGON AND GOVERNMENT COMPLEX AND FINANCIAL BACKERS PROFITEERING FROM WAR WERE AND REMAIN THE REAL ENEMIES! NOT US. DECADES LATER YOU TWERPS FUCK UP AGAIN SCAPEGOATING YOUR SIDE: THE POLICE! WILL YOU NEVER LEARN?

AMERICA TURN OFF MEDIA AND BEGIN THINKING AGAIN!

I think it was Ohio where Marshals forcibly carried out a number of their state assembly members from official offices while screaming that they could not do that. Yes, we the people could, did and fired them on "Initiative and Referendum" Votes. These are very powerful instruments, which is why the politicians do NOT want the people to have them!!! Those recalls put the fear of we the people as your god into the rest of Ohio' government to reverse massive income tax increases and more burdens covering up decades of theft on already strained people. Farmers were losing family farms of generations. Foreclosures evicted people, homelessness & unemployment topped off the chart. The rust belt remains as an almost vacant ghost of those times. Billy Joel's *Allen Town* described the horrors still plaguing the North East from Socialism gone wild. Listen to his song, look up those lyrics and read them. That was reality on a massive scale in this country. WE WERE HURTING! Remember all the welfare families one hears so much about? Untold generations of them still live on welfare there because of nothing else. That state of despair was product of over 60 years of runaway Socialism in this country. Ie. Take one look at Michigan & Detroit....Chicago, Ill...ad nauseam. US rebellion of the 80's movement wildfired across US as American's took back this country from the Socialists! Those without Initiative and Referendum did so by armed force, **militias of armed civilian forces** and the Constitution backed them up! **Can you see the wisdom of what our forefathers and foremothers did for us, you fools?** Get off your dead asses and social media, self-educate and get active. Know what is slacktivism and real activism.....

Today's stupid young and old people say, "you can do that [fire government?]"

YES!

That is what the US Constitution is all about - BINKY! You asses who wish to dilute that are fools! US Constitution does not give you rights! Those came with you at birth OEM! The Constitution only is a covenant between the governed with the government! They work for us not the other way

around! Were you sleeping or jacking off or playing with the cunt next to you during high school government classes. Our forefathers and FOREMOTHERS, I DON'T CARE WHAT THE FEMINISTS SAY, OUR FOREMOTHRs WERE IN THIS UP TO THEIR ASSES WITH THE MEN! Both knew and fully understood horrors of tyranny. Remember witch burnings? Lets get this straight - men and women are witches when facing the stake as human steak at one of those burnings! I DO NOT CARE WHAT THE HISTORY CHALLENGED FEMINISTS SAY! Men and women were roasting on the stake as witches, together.

Our forefathers and foremothers knew what criminals would do once in control and in office. They wisely armed us with the constitution and weapons to keep them fearful and in line among other protections that we have to preserve and be mindful about every moment!

THAT IS TRUE FREEDOM!

If you do not protect and guard FREEDOM all the fucking time, POOF! It is gone; and you never know what you got until it is gone, Binky!

Veterans, our US Armed Forces from local militia, Police, National Guards, and such are the sentries doing that, but we cannot do it all alone without America's support... Otherwise, the police state worse than Stalin's 'Orgs' and Hitler's 'SS' will rule your lives with terror beyond your wildest imagination!

AMERICA YOUR FREE RIDE AND LUNCH TICKET EXPIRED.

I lived through these eras of civil rights abuses and worse; my memories of them die when I die...it was both frightening and rewarding! That is the loss you have when those of us who lived through these times die and you do not learn from us before hand. Old people are the youths greatest treasure and you throw it all away! You will not get any of this from those wannbe fairy tale school history books and certainly not from your captors the Socialists. During that era, when Americans had enough pain they rose up with a savage bite, as did the rest of the world, against tyranny that was happening right here in USA not across the pond. When tyranny bit America in the ass, she did not waste time ferociously biting in return. Sadly, too many Americans had to suffer and die right here in the country before that happened! It still is happening through our veterans and police.....Wake up before it is too late. Yes, it is different; it is your assess this time not someone else's.

When Ronald Reagan swore into office, first crisis he encountered was a Mid East terrorist group in Iran, I think, all of them were acting as fools back then as now, holding American hostages almost all of pussy Carters reign of terror publicly killing one every so often to encourage America to meet its blackmail demands. All Carter did was run around the Whitehouse like a gibbering fool. The moment Reagan took office the terrorists immediately let all hostages go then hid out. Fuck, now, Reagan will nuke us of sure.

THAT IS LEADERSHIP!

The first leadership I have seen in the Whitehouse since Mr. Reagan was Mr. Trump. When Mr. Reagan swore in, the renaissance and golden age for 8 years arrived. He knew just what to do and say to quiet the rioting hordes...and it worked. The only thing I ever saw like that was a Hispanic singer named Selena. Crowds get violently out of control at the drop of a hat. She had a way with unruly crowds at her concert that was spooky. She could calm those animals by the coo of her voice...I saw it...experienced it and she was spooky in a good way. Reagan was like that, too. America needed that at the right time before this whole country shelled out & blew apart...we were that close to losing the farm. In my opinion, Ronald Reagan remains the greatest US president of the 20th century. I feel that way about Mr. Trump, too. Times are different now in a dying America. Mr. Donald Trump faced much worse than when Reagan took over from Carter, and Mr. Trump and his right hand man Mr. Wilkie go down in my book as the greatest president and leaders of the 21st century.

As an aside, Selena, RIP. Dear, you will never be forgotten. She was murdered at the age of 20, shot dead in the back by a jealous employee, and Hispanic woman. The murderer was a 'basker.' Baskers glow in the light of another's successes. These losers are parasitic, phonies, like socialists who take credit for what they do not do while keeping the masses distracted. That is when they do their most damage. That was the entire Socialist premise during Mr. Trump's term...and Americans never noticed a thing. VA is another such parasitic, phony & basker, BTW.

To continue, after I arrived at VA clinic, first thing that it did was offload my rotting carcass onto a local civilian hospital for an all expense paid visit to 5 days in ER and ICU..... Nobody ever officially dies in a VA facility if you get my drift especially when heavy hitters as Mr. Donald Trump and Mr. Wilkie are watching. 12 virgins scared deadbeat, matriarchal, misandrist, VA that much to actually pay the fucking hospital bill. Then once stable, VA ferried my still dying ass by ambulance to Dallas Regional as a training aid for their quacks. Then deadbeat VA tried to stiff me for the Ambulance bill. Mr. Trump and Mr. Wilkie had another serious talk with those losers and upped the penalty to 24 virgins in a 9' X 9' cell... to each VA employee - if you get my drift. Unlike current administration, Obiden's Socialists pussy farm, the Trump Administration was not playing around and VA knew it.

THAT IS POWER; THAT IS LEADERSHIP.

However all government contracts have a fail-safe bail out clause in them; this one was no different. It read that should I die, they had a warranty from the civilian hospital underwritten by Al*state indemnity that it would take the blame, pay off Washington absent those pain in the ass virgins to which Al*state indemnity said 'not only no but fuck no!' Sometimes American insurance companies are not so stupid after all. Combined with Hillary and Pelosi...it terrifies even Washington to think about consequences had VA murdered me. WW3 is a Chinese New Years party compared to those two and 12 virgins." We will take the stiff and cash but please no virgins. Not even VA mass, murder, nurse Mays was that crazy with her insulin habit to test it out on me. I was nearly dead, yet untouchable. Lucky fucking me. Just ask the Ft. Worth TX VA clinic NP who stringently obeyed the secret 'DO NOT TREAT ORDER' placed on my file after I called a 'quack a quack' in Dallas Regional Nephrology clinic. I call them like I see them.

That place is DUCK POND FOR QUACKS!!

The Republicans do have their moments! Thank god for Republicans, and like American Insurance companies sometimes they do have some sense after all. I don't care what Rush Limbaugh says. I am alive only from the miracle of **Mr. Trump and Mr. Wilkie and VA's fear of the 55 gallon can of whip ass those two opened and poured all over that shit hole of inequity.** Even Satan said, 'I am not stupid enough to tread in that shithole. Sorry you had to go through it dude, but hey that is why they call this place hell.' **Hey, Yo, Satan, you pussy, I could have used you as backup...do not ever arrive in my unit as my back man. I will shoot your sorry ass on the spot and list the loss as MIA, you backstabbing prick.**

I went through that only because Mr. Obamacare along with AARP ruined AFFORDABLE private health insurance and healthcare markets. Now I found me in the same circumstances as 100 US veterans do daily that die by suicide escaping VA hellcare and abandonment. I was trapped until either pulling the suicide, ejection seat handle to bail out, like the rest or find a less messy escape. **Heaven sent the less messy option.** Mr. Trump and Mr. Wilkie delivered it; baby I love you both & you excelled at your jobs but some things must come from the more powerful than you - **The Old Man who rules over this loony bin has seniority and sent down a working ejection seat and chute.** Dear VA, 'You are fired, again, assholes.' That just proves that the Old Man has a heart. I was beginning to wonder about that... Heaven had mercy on my dying soul. After almost 3 years of VA HELLCARE, my escape hatch opened wide. Feet do not fucking fail me now. The voice said, 'like Sodom and Gomorrah, do not look back - RUN!....and I passed Lot's old lady still melting as a salt statue at a dead run without looking in the rearview mirror.'

WHICH LEADS ME TO FUBAR OF BROKEN PEOPLE – US DEPT OF VETERANS AFFAIRS.

Today I get a voicemail from VA, Dallas Regional over 8 months after the final event. The caller remarks that your last Uro appointment was cancelled. Why? Yo, dipshit. You should know. VA sent me two written, mailed notices and a fucking phone message canceling that last appointment without cause. Then I received a no-show card by USPS mail, which is like a draft notice except from VA, giving me hell because I did not show up for it. Some asshole went to a lot of trouble to do that, which is rare for VA employees who normally do nothing except barely breathe for their paychecks. Do you get my drift?

FUBAR – PARADOX! VA IS TOTALLY AN AMERICAN, **SOCIALIST**, INSTITUTION. FOR THOSE SINGLE-BRAIN-CELLED AMERICAN PEOPLE THINKING ABOUT SOCIALIST, NATIONAL, HEALTHCARE...BINKY WAKE THE FUCK UP, NOW.

Remember Noah...everyone laughed at him but the animals? They knew something was up and hung around because Noah had his shit together. The Broken People who found him as amusement all **FUCKING DROWNED.** Noah said, 'that fixed you bitches for laughing instead of helping. You know how hard it was to saw that much wood and assemble this boat without nails!? Can you say 'Glub-Blub' fish food, assholes?'" The animals still live among us! Why? They were smarter than the fucking Homo Sapiens! They got on the boat just in time.

And here's a news flash, Homo Sapiens aka naked monkey's or ape's you are an animal...yeah, Binky...you!! A pig dressed in a gown and lipstick remains an oinker. Humans are no different than a dressed up circus bear riding a bicycle, except that the bear is better mannered but the smell is about the same.

I see the light....and understand what stoner's Mother Nature and Lady Evolution are doing taking a dump in the human gene pool using all three holes set on afterburner....I HAVE SEEN THE LIGHT OF HEAVEN!!!! THE ANIMALS HAD IT RIGHT ALL ALONG! Never saw a broken animal. Go figure.

Socialism has only two redeeming features in world history since dawn of Homo Sapiens:

1. It equally spreads the misery except to the fucks that thought up that torture.
2. It fails 100% every time and every place it is tried.

Only the Communists/Socialists could dream up such torture. Not even 12 virgins could hurt this bad Pelosi & Hillary notwithstanding. Otherwise, the Sultans would have gone extinct straight out of the mud puddle. To prove my point, Sweden, once the richest, most prosperous country since god set foot on this rock tried socialism and the VA model as a healthcare system. Now Sweden is bankrupt and frantically changing back to CAPITALISM to save the country's ass! The shitheads that sold them that con are on the run with a worldwide bounty on their Asses that not even Sgt. Serpico could escape. And now we have the American's repeating the Swede's fatal mistake....no hope for these Stupid People.

- Even god called down on 'Heaven's Bat Phone,' 'no fucking way...I fucked up on that batch FUBAR. Someone find that scientist who mixed that last gene pool batch and get his ass in here.... I want to have a serious talk with him and no excuses about stoners Mother Nature and Lady Evolution taking a 3-hole-dump in the genome pool. His ass is mine sayeth the lord – get him in here, NOW.'

I feel for the guy and cannot look. The Old Man can be brutal when he is on a tear. Maybe the Old Man will just turn him into a Minotaur or something...12 virgins would probably be heaven for it/s/he. What gender is a Minotaur, anyway? Genetic cloning....not my forte. The Old Man can be a real bitch when he gets a notion. Just ask Lucifer sitting way over there well away from this mess shaking his head saying, 'some things are so ugly not even my gut can take it. I am hiding out in Hell until this shit blows over....

As for the rest of us...

A Wise Native American once said, "When buffaloes fuck hide in mountains. Think I will hole up there for a while. Horny buffaloes in erotic heat have only pussy on the brains like Broken People Americans."

Ps. Yo, hey, Lucifer, save some of those antacids for me. I will be by at 8 sharp to watch the games.... get the beer cold, I need a couple.
